

Wronghut Announces Their Debut Title - Teaser Released!

Mazement is the debut title to be released in Autumn 2012 by [Wronghut](#), a fresh digital games startup company located in Tampere, Finland. Mazement is a unique mobile 3D ball-in-a-labyrinth gaming experience with a great graphical look and realistic physics, controlled using the accelerometer. In Mazement you control the tilt of the playing field by physically changing the orientation of your mobile device, in order to guide the **ball character** safely through increasingly difficult 3D-levels. It is an amazingly fun action puzzle game that challenges the player with mazes, traps and enemies.

"Mazement is an amazing combination of puzzle and action. I just love the artwork and atmosphere of the game and I find it very addictive.", says Jukka Mikkonen, the CEO of Wronghut.

The game offers a compelling story with beautiful artwork for players of all ages, and can be enjoyed by anyone, regardless of skill level. At a glance it is clear how the game works - but will you be able to finish the last levels and beat the boss enemies? With a 5-star rating?

Mazement will be available this Autumn for iOS and Android.

A teaser is now available from Mazement's website: <http://mazement-game.com/>
